HC Truck Driver

Come and join our busy Logistics team based at our production nursery at **Glenorie**.

Flower Power is Australia's largest Garden & Landscape centre group with 11 retail and wholesale operations throughout Sydney.

Our busy production nursery Arborglen situated in the Hills District, requires an experienced driver for the delivery of plants - with shifts mainly starting at 6am (Monday through to Friday) with occasional weekend shifts. This is a great role for those drivers wishing to be home each night rather than night shifts or change from an interstate driving job. **Both casual and part-time opportunities available.**

You will require a **HC licence** & recent **RMS printout**, and a **minimum 2-3 years' driving experience**. You will need a good working knowledge of the Sydney metropolitan area.

Drivers are required to load and unload plant trolleys, so the successful applicant must be physically fit, and willingly to participate in a pre-employment medical with drugs & alcohol screening prior to commencing employment.

Attractive rates and good working conditions being offered. Once we've covered a thorough Induction including a medical check, it's straight into work!

If you wish to work within a leading retail organisation, then this may be the role you've been long been waiting for! Apply today on [Indeed](#).
